SUMMARY

Full-stack developer skilled in **Java, React, Spring Boot, MySQL, HTML, CSS, JavaScript**. Experienced in building scalable applications, integrating REST APIs, and applying machine learning concepts to real-world projects. Strong foundation in **OOP, data structures, debugging, and problem-solving** with a collaborative development mindset.

EDUCATION

SJB Institute of Technology, Bengaluru	Dec 2021 – Jun 2025
Bachelor of Engineering in Computer Science	*CGPA: 7.37*
Delhi Public School Jubilee, Motihari	2021
Senior Secondary (CBSE)	*68.14%*
Chandrasheel Vidyapeeth, Kanti	2017
Secondary (CBSE)	*76%*

TECHNICAL SKILLS

Languages: Java, Python (Beginner)
Backend & Frameworks: Spring, Spring Boot, Hibernate, JDBC, REST APIs
Frontend: React, HTML, CSS, JavaScript, Bootstrap
Database: MySQL
Tools: Git, IntelliJ IDEA, Eclipse, VS Code, Maven
Core Concepts: OOP, Data Structures, Problem Solving, Debugging

PROJECTS

Sales Savvy – Full Stack E-Commerce Platform (Java, Spring Boot, React, MySQL, Docker)

- Engineered a fully functional full-stack e-commerce platform integrating authentication, user management, product catalog, cart, order management, and secure payment services.
- Integrated payment gateways such as Razorpay, Stripe, and PayPal while securely handling transactions, storing payment details, and generating confirmations for users and admins.
- Designed modular backend services using Spring Boot and REST APIs to ensure scalability, flexibility for upgrades, and improved maintainability.
- Containerized the application with Docker and Docker Compose, enabling simplified deployment and efficient multi-container management.

WORK EXPERIENCE

Software Development Intern — Kodnest Technologies, Bengaluru Jun 2025 – Present
Worked on Java programming, MySQL database handling, and frontend development during full project lifecycles. Assisted in debugging, manual testing, and improving code quality in agile team environments. Collaborated with senior developers to understand industry-standard software engineering practices.

CERTIFICATIONS

Software Engineer – HackerRank
SQL (Basic) – HackerRank
Java Programming – Udemy
HTML, CSS & JavaScript – Udemy
Design Thinking – NPTEL
Cloud Computing – NPTEL
Web Development & React with Python – VTU Internship

ACHIEVEMENTS & ACTIVITIES

Organized workshops on emerging technologies, supported fundraising initiatives for education, and coordinated major technical events in college.
