

ANUPAM KUMAR

Full-Stack Java Developer | Bengaluru, Karnataka

(+91) 9973467274 | anupamkumar3062@gmail.com | annnuupam | anupam3062 | Portfolio

SUMMARY

Full-stack developer specializing in **Java, Spring Boot, React, and MySQL**, with hands-on experience designing, building, and deploying production-grade web applications. Skilled in REST API design, relational database modeling, containerized deployment with Docker, and payment gateway integration. Solid foundation in **object-oriented design, data structures, and debugging**, with a collaborative mindset and exposure to the full SDLC.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL

Backend & Frameworks: Spring Boot, Spring Security, Hibernate, JDBC, REST APIs, JWT

Frontend: React, HTML5, CSS3, Bootstrap

Database: MySQL

DevOps & Tools: Docker, Docker Compose, Git, Maven, IntelliJ IDEA, VS Code

Core Concepts: OOP, Data Structures & Algorithms, SDLC, Debugging, Problem Solving

PROJECTS

NexCart – Full-Stack E-Commerce Platform

Java, Spring Boot, React, MySQL, Docker

- Designed and built a full-stack e-commerce platform end-to-end, covering user authentication, product catalog, shopping cart, order management, and RESTful backend APIs.
- Integrated three payment gateways – Razorpay, Stripe, and PayPal – implementing secure transaction handling and automated order confirmation workflows.
- Containerized the application with Docker and Docker Compose, enabling consistent, reproducible, multi-service deployment across environments.

TestFlow – Online Examination Platform

Java, Spring Boot, React, MySQL, Docker, TypeScript

- Built a SaaS-style online assessment platform with multi-role access (admin and candidate) and a real-time test engine.
- Integrated the Monaco code editor with timer synchronization and multi-language code evaluation to support live programming assessments.
- Implemented authentication and authorization with Spring Security and JWT, and deployed the platform via Docker Compose for production-ready delivery.

EXPERIENCE

Java Full Stack Developer (Trainee) | Kodnest Technologies, Bengaluru

Jun 2025 – Present

- Completing intensive full-stack training covering Java, Spring Boot, React, and MySQL through hands-on project development.
- Built RESTful APIs, implemented CRUD database operations, and developed end-to-end full-stack applications.
- Gained practical exposure to SDLC, Agile practices, code review, debugging, and performance optimization.

EDUCATION

SJB Institute of Technology, Bengaluru

Dec 2021 – Jun 2025

Bachelor of Engineering in Computer Science

CGPA: 7.37

Delhi Public School Jubilee, Motihari

2021

Senior Secondary (CBSE)

68%

Chandrasheel Vidyapeeth, Kanti

2017

Secondary (CBSE)

76%

CERTIFICATIONS

- Software Engineer – HackerRank
- SQL (Basic) – HackerRank
- Cloud Computing – NPTEL
- Web Development & React with Python – VTU Internship

ACHIEVEMENTS & ACTIVITIES

Organized and led technical workshops for 100+ students; coordinated college-level technical events end-to-end; supported fundraising initiatives for student education.
